Acting Planning Director
105 Albright St., Suite H
Taos, NM 87571

Re: Compliance with Conditions of Approval, Taos Airport

Dear Mr. Vigil,

On December 23, 2014 you issued your *Decision of Planning Director* in this matter. Your decision approved the application subject to a number of conditions. Work has now commenced on the project and it is not at all clear that the Town of Taos has complied with the prerequisite conditions of approval.

We ask that you review all 11 conditions of approval, including principally conditions No. 2,5 and 7. More particularly, your order required compliance with all requirements of the ROD (FAA Record of Decision, 09/19/2012) that by its terms incorporates both the MOU among the FAA, Taos Pueblo and the Town of Taos and the Ch. 6 environmental mitigation factors of the Environmental Impact Statement. I have enclosed the relevant portions of the FAA Southwest Region Administrator's order from the ROD, the EIS mitigation requirements and the MOU for your review and verification that the Town is meeting its obligations.

Please investigate and determine compliance with these conditions of approval. If you have proof of compliance, please provide us with copies of such proof (you may consider this a request for inspection of documents under the Inspection of Public Records Act). If the Town of Taos has not shown compliance, we ask that you issue an order that the Town stop all work until it comes into compliance.

Thank you.

Sincerely,

Christopher L. Graeser
